Monday

Year 1

Drama

We offer a fun filled hour of drama exercises and games that not only help children understand the importance of storytelling throughout the ages, but also helps develop their creativity, confidence and social skills in an enjoyable and unintimidating way.

In our early years the focus is on teamwork, speaking outloud and developing a sense of self in a group environment. As the years progress we introduce text work, improvisation and a true understanding of characterisation that they can take with them as they move onto secondary school.

All our teachers are industry professionals, who not only have years of acting experience, but also a wealth of experience in teaching and facilitating the art for children.

If you are interested in signing up or hearing me, send an email to:

Tuesday: The Creation Station

Years 1-6

Years 1–6, come and join me for Autumn 2026 Create Club!

This term, we're exploring 'Inspired by Me' — a creative adventure celebrating individuality, imagination and all the things that make us unique.

Each week, children will try something new, explore exciting art techniques and a variety of materials, build their creative confidence, make friends and take home something they'll be proud of.

Create Club is a fun, relaxed space where children can slow down, get creative and let their imaginations take the lead. No pressure to be perfect — just lots of making, exploring and having fun!

Find out more and book your child's place here:

FEATURING THE

YOUNG ENGINEERS
BRICKS CHALLENGE PROGRAMME

BUILD IT. MOVE IT. DISCOVER HOW IT WORKS.

A hands-on engineering programme where children build movable **LEGO**® models and discover the fascinating mechanics and physics that make them work.

EACH WEEK. NEW CHALLENGE. REAL ENGINEERING.

Children follow building instructions to create working models while exploring concepts such as **gears, forces, motion, transmission** and mechanical systems. From moving machines to exciting mechanical creations, children don't just learn how things are built — they discover why they work.

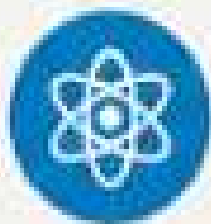

THROUGH BUILDING, CHILDREN DEVELOP

ENGINEERING THINKING

Understanding how mechanisms and moving systems work.

MECHANICS & PHYSICS

Discovering gears, forces, motion and transmission through practical experiments.

PROBLEM-SOLVING

Testing ideas, overcoming challenges and finding solutions.

CREATIVITY & CONFIDENCE

Learning through building, experimenting and achieving.
