

Year 5 - Religious Education - Programme of Study

Religious Education (RE) is a core subject and an integral part of our curriculum. We are dedicated to providing high quality RE teaching and learning opportunities to reflect the importance of RE within our school. Current Excellent and Good SIAMS (Statutory Inspection of Anglican and Methodist Schools) reports show that each of the schools deliver, within a Christian context, the best educational, spiritual, physical, social and emotional outcomes for children and their families. Each year group has a wide range of exciting and thought-provoking topics that are studied throughout the year, within Christianity (based around 'Understanding Christianity'), as well as units of learning about other faiths.

Our programme of study is in conjunction with the diocesan syllabus and is committed to an approach to teaching RE in which skills are developed through knowledge and understanding and that pupils understand how their learning in RE is progressing and what they need to do to improve it.

Termly Topics/Units

All units start with 'Big questions', where pupils are able to really explore and reflect what their current belief on a topic is; what they already know; what they do not know and most significantly, what they want to find out! This then informs the planning and adaptation of content for the following weeks.

Autumn 1

Topic/Unit: Creation and Science: Conflicting or complimentary?

This theme is incredibly interesting and quite remarkable. The pupils will explore the differing stories of creation, the role of God as creator of all things, different interpretations of what the Bible says (Genesis 1), Christian views around science and faith, discussing the debates and controversies around the relationship between the creation story and contemporary scientific accounts, as well as exploring and sharing their own view on Creation based on religion and scientific perspectives.

Knowledge:

- Reasoning for similar and different beliefs.
- Research and analysis of biblical and scientific sources.
- The sequence of creation, according to biblical texts.
- Interpretation of biblical scripture.
- Acquisition of biblical literacy and vocabulary.
- Making connections between fact and opinion/belief.
- Understanding and awareness of other views and perspectives.
- Questions and answers, as well as theories around the purpose of life.

Enquiring minds:

For each unit, it is so important that pupils are able to question and make enquiries related to their learning. Here are some examples of questions that pupils might ask and discuss with regards to this unit:

- How does the biblical story of creation differ/compare to that of science?

- What was the sequence of creation?
- Why did God rest on the seventh day?
- How do people interpret the story of creation?
- Does science conflict or compliment the story of creation?
- What do you believe, with regards to how the world and all that is in it, came to be?
- How have historical events impacted on religion?
- What is reality?
- Why is there so much diversity in thinking?

Autumn 2

Topic/Unit: Incarnation – Was Jesus the Messiah?

Please note that this topic crosses over into the Spring 1 term, but the programme of study will be discussed here.

Throughout this unit, pupils will explore what life was like at the time of the end of the Old Testament, prophecies about the Messiah, the Christian belief that Jesus is the Messiah as well as biblical evidence that points to this (Matthew), the role and significance of Christmas as a historical and meaningful celebration of the arrival of the Messiah, a look at how Christmas is celebrated and recognised in different parts of the world, a look at the Christian belief that the world needed a saviour, as well as the commemoration of the entrance of Jesus into Jerusalem on what Christians call: Palm Sunday (Matthew 21).

Knowledge:

- Understanding and explanation of the place of Incarnation and Messiah within the 'big story' of the Bible.
- Identification of Gospel and prophecy texts, using technical terms.
- Making connections between biblical texts, Incarnation and Messiah, using theological terms.
- Understanding and awareness that the Christian belief is that Christmas is a time of celebration for the arrival of the Messiah.
- Research and analysis of how Christmas is celebrated around the world and what it means to different people.
- Comment and explain how the idea that Jesus is the Messiah makes sense in the wider story of the Bible.
- Critically analyse how the idea that Jesus is the Messiah — a Saviour from God — is important in the world today and, if it is true, what difference that might make in people's lives.

Enquiring minds:

For each unit, it is so important that pupils are able to question and make enquiries related to their learning. Here are some examples of questions that pupils might ask and discuss with regards to this unit:

- What were the conditions of life at the end of the Old Testament?
- How did life at the end of the Old Testament differ to life today?
- What is a Messiah?
- What does the Bible say about a promised Messiah?
- Why do we celebrate Christmas – what is its significance?
- Does the world celebrate Christmas for the same reasons as Christians do?
- How is Christmas celebrated across the world, in different religions and cultures?
- Why does the world need a saviour?
- What do Christians believe the world needs saving from?
- Was Jesus the Messiah?
- What effect do our thoughts have?
- How Can Society share beliefs?
- Romans 8:29 tells us that he wants his people to be just like Jesus. What does he therefore want Christians to do?

Spring 1
